

A Deep Dive Into

A TUTORIAL FOR CONTENT PROVIDERS

NASIG 2016

Introductions – us!

Sheri Meares

Senior Director, Knowledge Base, EBSCO

smeares@ebSCO.com

Marlene van Ballegooie

Metadata Technologies Manager, University of Toronto Libraries

m.vanballegooie@utoronto.ca

Kristen Wilson

Associate Head of Acquisitions & Discovery, NC State University Libraries

kristen_wilson@ncsu.edu

Introductions – you!

What is your name and where are you from?

What is your interest in KBART?

Do you currently use KBART in any way?

If you only take one thing away from this workshop, what do you hope it will be?

Agenda

Introduction to KBART

Supply chain perspectives

Metadata exchange

KBART for serials

Serials activity

KBART for monographs

Monographs activity

Wrap up

What is KBART?

Knowledge Bases And
Related Tools

UKSG/NISO Working
group (2007-2014)

NISO Standing Committee
(2014-present)

(Very brief) history of KBART

James Culling's 2007 UKSG Report

- “Link Resolvers and the Serials Supply Chain”
- <http://www.uksg.org/projects/linkfinal>

KBART Aim: Develop a recommended practice to ensure the timely transfer of accurate data to knowledge bases and link resolver providers.

Phase 1 – Completed in 2010

- Main focus was on metadata for serials

Phase 2 – Completed in 2014

- Build on Phase 1 recommendations
- Focus on e-book, Open Access and consortia metadata

Who is KBART?

Cross-industry

Information professionals

Working together

... is easier

KBART administration

Co-chairs:

- Magaly Bascones, JISC
- Ben Johnson, ProQuest

NISO representative:

- Nettie Lagace, Associate Director for Programs

KBART standing committee

Content providers

- Kathy Marcaccio (Gale Cengage Learning)
- Julie Zhu (IEEE)
- Noah Levin (Springer)
- Laird Barrett (Taylor & Francis Group)

Knowledgebase vendors

- Sheri Meares (EBSCO Information Services)
- Christine Stohn (Ex Libris, Inc.)
- Kristen Wilson (GOKb)
- Ben Johnson (ProQuest)
- Bill Brembeck (OCLC)

Librarians

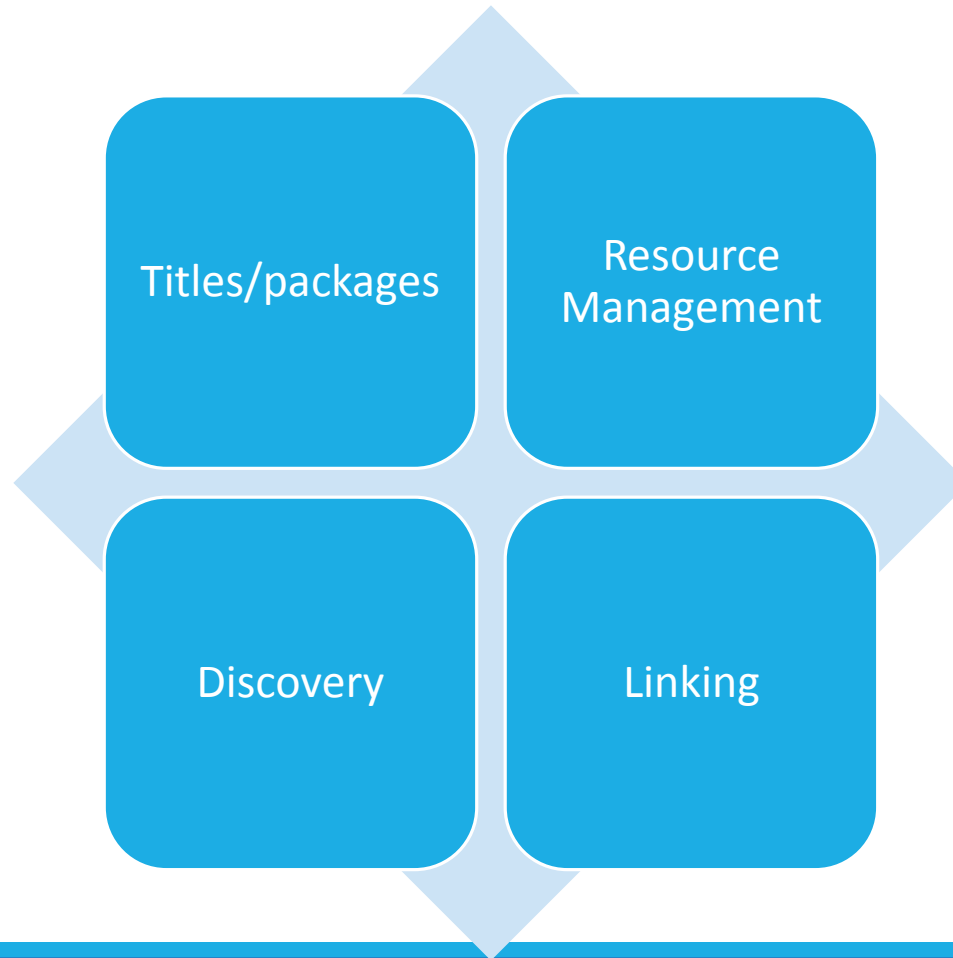

- Dominic Benson (Brunel University London)
- Magaly Bascones (Jisc)
- Kristen Wilson (NC State University)
- Marlene van Ballegooie (University of Toronto)

Why KBART?

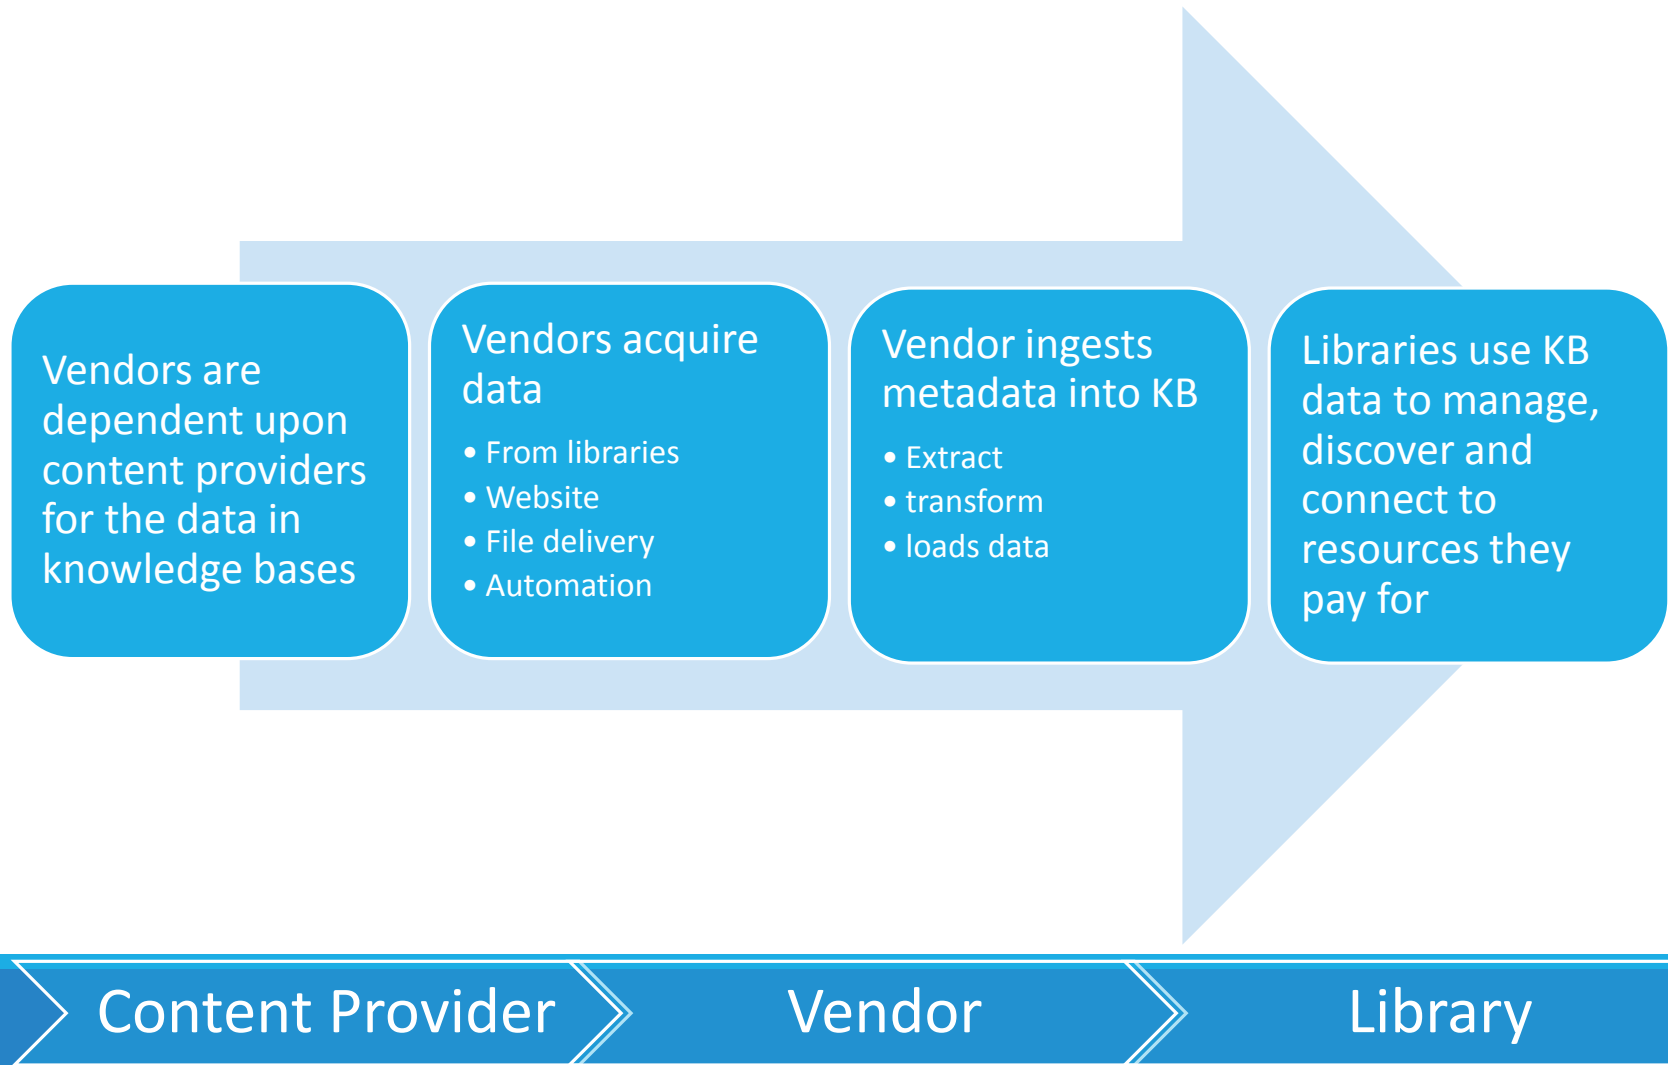

Created by Lia
from Noun Project

Knowledge bases

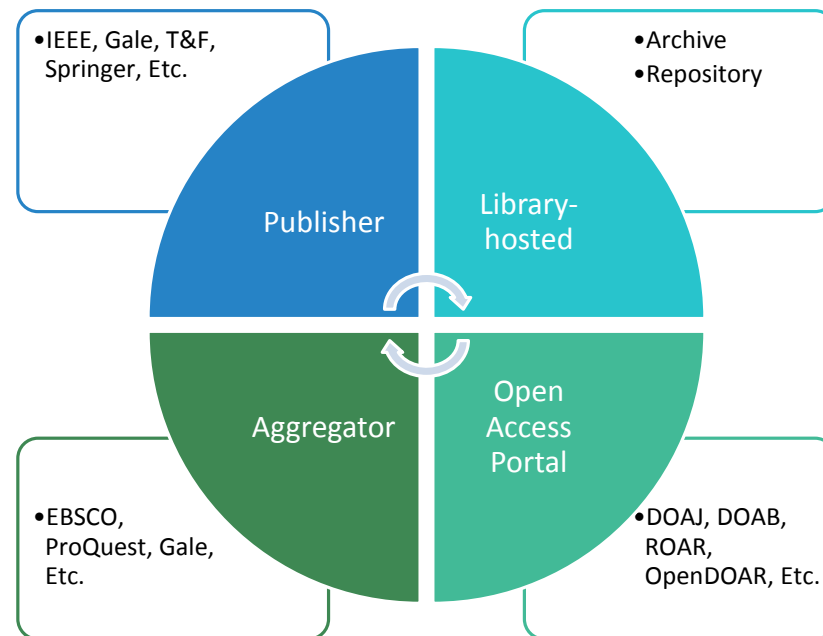

Knowledge base supply chain

What is a content provider?

Content Provider (or just provider) is an organization that provides access to online content, either paid or free

What is a vendor?

A vendor is an organization that creates library systems products and services (using KBs)

What is KBART?

Recommendations for the transmission of data to knowledge bases (KBs)

Title and package data of electronic serials and books

Purchased/leased/accessed by libraries

Transparency of data exchanged

KBART sample

Note: The spreadsheet for this data has been split into three sections for viewability in this document. The second and third sections represent additional columns that were appended to the first section in the original spreadsheet.

publication_title	print_identifier	online_identifier	date_first_issue_online	num_first_vol_online	num_first_issue_online	date_last_issue_online	num_last_vol_online	num_last_issue_online

Why adopt KBART guidelines?

Expose your content to greater usage

- OpenURL link resolvers and discovery services rely on publisher-supplied knowledge base data
- Accurate data increases exposure and usage of fulltext content and leads to better interoperability and access.

Universally accepted data format

- Provides a standardized way to exchange and update product availability details across the supply chain.
- Human-readable title list for marketing and product information.

Immediate return on investment

- Single source where content providers can refer knowledge base providers, aggregators, consortia and libraries.

KBART endorsement process

1. Indicate your interest by contacting a KBART working group member at: kbart@niso.org
2. Read the requirements, accessible via <http://www.niso.org/workrooms/kbart>. The recommended practice also includes a data sample file
3. Format your e-journal and e-book content availability data to meet the requirements
4. Ensure that you have a process in place for regular data exchange as outlined in [section 5.2](#) of the KBART report
5. Register your organization on the KBART registry website (sites.google.com/site/kbartregistry/), providing a link to download the newly KBART formatted dataset(s)
6. KBART will provide a logo for your site and issue a press release
7. Provide the KBART formatted data (or its download location) to your supply chain contacts

KBART Registry

**KBART Registry**

NISO KBART Web Site
UKSG Information Hub
Join the Registry

This registry aims to provide a list of contacts, URLs and instructional content providers and link resolvers. Please note, KBART endorses

Three perspectives on the value of KBART

Content provider perspective

Discovery and good metadata = \$\$\$\$

- If customers can't find and access what they purchased then usage disappears

Let the customer know what they purchased!

- The department that made the purchase is often not the same group that manages the content & data.

Support the purchase of content by providing appropriate data

Provide data as widespread as possible

- Send to knowledge bases
- Public access to title lists

Content provider challenges

Legacy Systems

Prioritization within the organization

- Convincing management of the importance
- Getting on an IT/technical roadmap

Data clean-up efforts that will make you cry

Staying ahead of the curve

KB vendor challenges

Building relationships with content providers

Gathering data (varied formats, accuracy, consistency, and completeness)

Validating, correcting, and enriching the data

Converting it to the internal knowledge base format

Performing quality assurance

Keeping the knowledge base current

Why is KBART important to vendors?

KBART provides a common format and schedule for data to be supplied

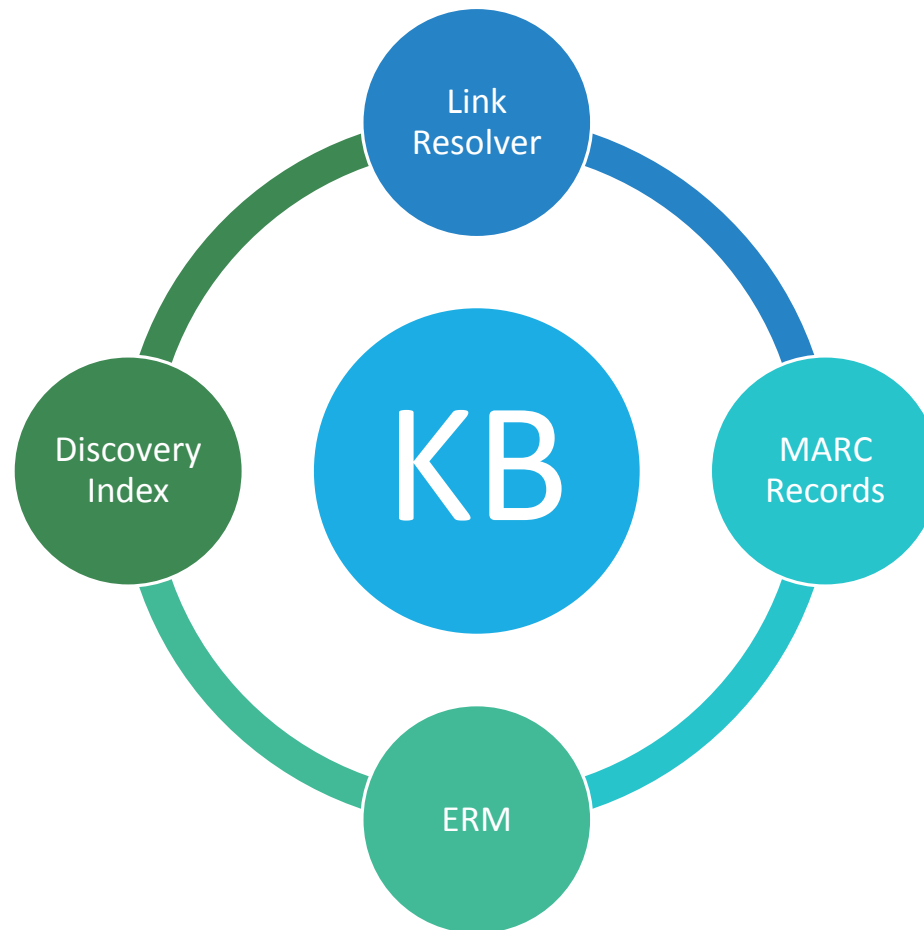

- Lower risk of errors
- Increased timeliness
- Reduced effort required to correct/compare common data

Vendors work with data from thousands of providers

- De-duplicate results for the same title
 - New York Times/ N.Y. Times/New York Times (Late New York Edition) = New York Times
- Disambiguate
 - Times (London, England : 1788)/ Times (Gainesville, Ga.)/ Times (Charleston, S.C.)

Enables vendors to focus on enhancing and enriching the data within the knowledge base

Library perspective

Library perspective

Errors and inconsistencies in knowledge base data cause services to break down.

Library perspective

Better data leads to a better user experience.

2014 - Volume 33 World Englishes
 Volume 33, Issue 4, Pages 423-532, December 2014
 Volume 33, Issue 3, Pages 307-422, September 2014 Special Issue: ENGLISH IN MULTILINGUAL SINGAPORE
 Volume 33, Issue 2, Pages 157-306, June 2014
 Volume 33, Issue 1, Pages 1-156, March 2014
2013 - Volume 32 World Englishes
 Volume 32, Issue 4, Pages 461-564, December 2013 Special Issue: SYMPOSIUM ON WORLD ENGLISHES AND INTERNATIONAL CALL CENTRES
 Volume 32, Issue 3, Pages 297-460, September 2013 Special Issue: SYMPOSIUM ON WORLD ENGLISHES IN WORLD RELIGIONS

Library perspective

KBART files are a good source of well-formatted data describing content libraries have purchased.

The image is a collage of three screenshots from library websites, illustrating sources for KBART files.

- Left Screenshot (JSTOR):** Shows the JSTOR website interface. The top navigation bar includes the JSTOR logo and the text "FOR LIBRARIANS". Below the navigation bar, there is a section titled "KBART Ph" (likely KBART Files) with a note: "We now offer journal recommended practice". Below this, there is a list of content packages, including "IEEE Xplore All Jo", "IEEE Xplore All Co", "IEEE Xplore All C", "IEEE Xplore All St", "IEEE Xplore All et", "IEEE Xplore All Co", "IEEE/IET Electron", "IEEE/IET Electron", "IEEE/IET Electron", "IEEE All-Society f", "IEEE All-Society f", "IEEE Proceedings", "IEEE Proceedings", "IEEE Proceedings", and "IEEE Proceedings".
- Middle Screenshot (Project MUSE):** Shows the Project MUSE website interface. The top navigation bar includes the Project MUSE logo and the text "FOR LIBRARIANS". Below the navigation bar, there is a section titled "for Librarians" with a list of links: "Administrative Tools", "Usage Statistics", "Create OpenURL", "MUSE Holdings Tool", "KBART Files to Books", "KBART Files to Journals", "Download MARC Records", "Search Widget", "Discovery and Linking Partners", "Training Resources", "Promotional Materials", "MUSE Newsletters", "Conference Attendance", "Request Technical Support", and "FAQ".
- Right Screenshot (Springer Link):** Shows the Springer Link website interface. The top navigation bar includes the Springer Link logo and the text "Sign up / Log in", "English", and "Academic edition". Below the navigation bar, there is a search bar and a "Search" button. Below the search bar, there is a section titled "Content Package Lists" with a description: "The lists below describe the contents of common Springer content packages. The lists have been designed to meet the emergent KBART standard, and are provided in plain text, as .txt format. The downloaded file names indicate the date the files were generated. To convert and view these files in Microsoft Excel, please refer to the following instructions." Below this, there is a section titled "Complete Packages" with a list of links: "Complete eBooks", "Complete eBooks Contemporary (2005+)", "Complete eBooks Archive (pre-2005)", "Complete Journals", "Complete Journals Contemporary (1997+)", "Complete Journals Archive (pre-1997)", "Complete Reference Works", and "Complete Protocols". Below this, there is a section titled "English/International Contemporary Ebook Packages" with a list of links: "Springer English/International eBooks 2005 - Full Set", "Springer English/International eBooks 2006 - Full Set", "Springer English/International eBooks 2007 - Full Set", and "Springer English/International eBooks 2008 - Full Set".

Method of exchange

Posting holdings data to a dedicated webpage or FTP site is preferable.

E-mail exchange is not ideal because it is more difficult to incorporate into automated processing routines.

However, if posting to the web or FTP is unachievable, email is an acceptable alternative.

Frequency of exchange

A monthly metadata update is recommended.

If content is updated less frequently, you may choose a less frequent update schedule; more frequent content changes may require a more frequent update schedule.

File naming

File naming convention

- [ProviderName]_[Region/Consortium]_[PackageName]_[YYYY-MM-DD].txt

Provider Name

- Should be the platform at which the data is hosted.

Region/Consortium

- Should include any information based on where the package is sold, or to what consortium it applies.

File naming

Package Name

- Files should be named as customers would expect to see them labeled in the knowledge base.

Date

- File creation date using the ISO 8601 date format

Quiz!

True or false?

KBART files should be generated for all available collections sold by a content provider, including Consortia deals if they differ from a standard collection.

Quiz!

True or false?

KBART files should be generated for all available collections sold by a content provider, including Consortia deals if they differ from a standard collection.

True

File format, fields, and labels

All metadata should be provided as plain text.

Text should be encoded as UTF-8.

Tab separated metadata file with column headers.

All fields are mandatory, if they exist.

Every field should appear in the order presented in KBART recommendation 6.6.1.

Extra fields

If it is desired to transmit additional information for purposes not required by the KBART Recommended Practice, extra data fields can be added after the last KBART utilized position, (access_type in position 25).

Quiz!

What is the ideal method for delivering KBART lists?

- a) E-mail
- b) FTP site
- c) Dedicated webpage
- d) B and C

Which of the following is the correct syntax for naming a KBARTII file?

- a) [PackageName]_[YYYY-MM-DD].txt
- b) [ProviderName]_[PackageName]_[YYYY-MM-DD].txt
- c) [ProviderName]_[Region/Consortium]_[PackageName]_[YYYY-MM-DD].txt
- d) None of the above

Quiz!

KBART for serials

Some fields are never used for serials

- date_monograph_published_print
- date_monograph_published_online
- monograph_volume
- monograph_edition
- first_author
- first_editor

publication_title

Full name of the serial title as it appears on the print edition or home page

Avoid abbreviations

Include lead articles

British Medical Journal

BMJ

The Holocene

Holocene

publication_title

Enter book series/conference proceedings series titles as serial titles.

Volume titles will be entered separately as monographs.

Methods in Enzymology

Lecture Notes in Computer Science

Proceedings of Symposia in Applied Mathematics

Handling title changes

Publishers should provide title history information if available.

Previous titles of a serial should be listed as separate entries, with their own set of coverage dates corresponding to the period of time in which that title was used.

The Preceding Publication Identifier can be used to indicate relationships between previous and later titles.

Handling title changes

publication_title	print_identifier	date_first_issue_online	date_last_issue_online

date_first_issue_online

Date of first serial issue available online that is part of the package described.

Use the ISO 8601 date format for all dates.

Non-numeric dates (e.g., Spring or Summer) are not supported in ISO 8601.

1991-01

(First issue online January 1991)

2007

(First issue online 2007 annual volume)

2013-05-01

(First issue online May 1, 2013)

Examples of dates in ISO 8601

Use only those parts of the date data that apply.

Date	Date in ISO 8601 format
May 24, 2013	2013-05-24
January 18, 2012	2012-01-18
April 2014	2014-04
January 2015	2015-01
1999	1999

num_first_vol_online

Give the volume number of the first issue online that is part of the package described.

Do not use captions (e.g., “vol.” or “v.”).

The house style for citing content may be used, if appropriate.

34

Vol. 34

v. 34

num_first_issue_online

Give the issue number of the first issue online that is part of the package described.

Do not use captions (e.g., “no.” or “n.”).

Do not include supplement or part values.

The house style for citing content may be used (e.g., an alphanumeric value).

1

1A

n. 1

No. 1

date_last_issue_online

Date of last serial issue available online that is part of the package described.

Use the ISO 8601 date format for all dates.

Leave this field blank if the journal is available “to the present.”

date_first_issue_online	date_last_issue_online	Interpretation
2012-05		May 2012 to the present
2001-09-15	2008-03-15	Sept. 15 th 2001 to Mar. 15 th 2008
1967-02	1986-04	Feb. 1967 to Apr. 1986

num_last_vol_online

Give the volume number of the first issue online that is part of the package described.

Do not use captions (e.g., “vol.” or “v.”).

The house style for citing content may be used, if appropriate.

num_last_issue_online

Give the issue number of the first issue online that is part of the package described.

Do not use captions (e.g., “no.” or “n.”).

Do not include supplement or part values.

The house style for citing content may be used (e.g., an alphanumeric value).

Quiz!

In which columns should the following types of ISSNs be included?

- a) Print ISSN
- b) Electronic ISSN
- c) Microfilm ISSN
- d) Linking ISSN

Quiz!

In which columns should the following types of ISSNs be included?

- a) Print ISSN – `print_identifier`
- b) Electronic ISSN – `online_identifier`
- c) Microfilm ISSN – `custom field after position 25`
- d) Linking ISSN – `custom field after position 25`

Quiz!

Which of the following are properly formatted for `date_first_issue_online`?

- a) 2007
- b) 01/13/1983
- c) Summer 2000
- d) 1883-01-01

Quiz!

Which of the following are properly formatted for date_first_issue_online?

- a) 2007
- b) ~~01/13/1983~~ 1983-01-13
- c) ~~Summer 2000~~ 2000-07
- d) 1883-01-01

Lecture Notes in Computer Science

Description

The series Lecture Notes in Computer Science (LNCS), including its subseries Lecture Notes in Artificial Intelligence (LNAI) and Lecture Notes in Bioinformatics (LNBI), has established itself as a medium for the publication of new developments in computer science and information technology research and teaching - quickly, informally, and at a high level.

The cornerstone of LNCS's editorial policy is its unwavering commitment ... [show all](#)

title_id

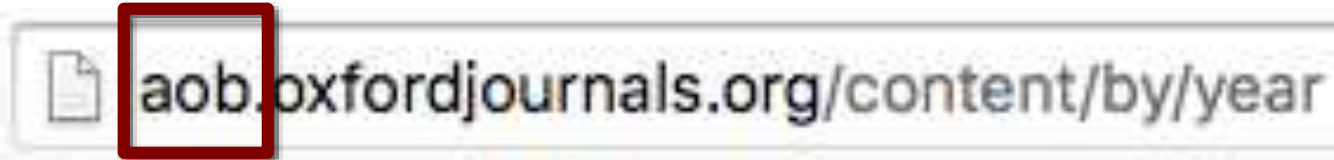

Give the proprietary identifier for the content title, if you use a title identifier to create links to content.

If more than one identifier exists, supply the title identifier used for linking.

This field may be left blank, but it would be preferable to include a title_id if one exists.

For series titles, provide the ID associated with the series, not a specific volume.

embargo_info

Embargoes are most often the result of contractual limitations established between the publisher and content provider.

All embargoes involve a “moving wall”, a point in time that is relative to the present date. (e.g. 12 months ago).

This data field reflects the limitation on when resources become available online.

The embargo statement has three components: type, length and units.

embargo_info

Type – Could be one of two values:

- “R” (“recurring”) is used if access to the journal begins at the moving wall.
- “P” (“period”) is used if access ends at the moving wall.

Length – use an integer to express the length of the embargo.

Units – Supply the units for the number used in the “length” value.

- “D” is used for days
- “M” is used for months
- “Y” is used for years

Embargo examples

Data Value	Scenario
R365D	A newspaper database provides access to content for the previous year
P1Y	A journal has a subscription model that gives customers access to all issues except the current calendar year.
P2Y	A journal provides access to all content except for the previous and current calendar year.
R5Y	A journal has an access model that only supplies the past 5 years of content.
P180D	A journal aggregator provides access to all content except for the past 180 days.
R1Y	A provider gives customers access to one “calendar year” of journal content starting in January of the current year.

coverage_depth

Indicate the extent to which content is covered within the coverage range and embargo fields.

This field can contain three values:

- fulltext – Indicates that the fulltext of the journal/monograph is available.
- selected articles – Indicates that coverage includes the fulltext of some, but not all articles. Coverage policy should be outlined in the notes field.
- abstracts – Indicates that coverage includes only abstracts of articles.

Which page should the `title_url` field point to?

Editors:
Peter Widdows, King's College, London, UK
David Parsons, King's College, London, UK
[Editorial Board](#)

The Knowledge Engineering Review is committed to the development of the field of artificial intelligence and the clarification and dissemination of its methods and concepts. KERR publishes analyses — high quality surveys providing balanced but critical presentations of the primary concepts in an area; technical tutorials — detailed introductions to an area; application and country surveys; commentaries and debates; book reviews; and a popular 'from the journals' section, giving the contents of current journals in theoretical and applied artificial intelligence.

Quiz

Which of the following represents a 12 month embargo on current content?

- a) P1Y
- b) R12M
- c) P12M

Quiz

Which of the following represents a 12 month embargo on current content?

a) P1Y

~~b) R12M~~

c) P12M

notes

This is an optional free-text field.

May be used to provide more details pertaining to coverage depth and other exclusions in content.

Excludes letters and books reviews.

Certain articles are Open Access supported by author fees.

Excludes graphics.

publisher_name

Provide the publisher name of the serial.

Do not confuse with the name of a third-party hosting platform.

American Antiquity

Hosted on IngentaConnect

Published by Society for American Archaeology

Aquatic Toxicology

Hosted on Scholars Portal

Published by Elsevier

publication_type

This field must contain one of two possible values:

- Serial – a journal, conference proceeding serial, or series title
- Monograph – an independent book or a volume within a series

preceding_publication_title_id

Indicate the identifier of the preceding serial title if there has been a change in the title.

Field should contain the same value as the title_id of the preceding title in the file.

Only include the title_id immediately preceding the title being described.

publication_title	title_id	Preceding_publication_title_id
Academic Pediatrics	18762859	15301567
Ambulatory Pediatrics	15301567	

access_type

F = Free content

- 100% of the content must be free

P = Paid content

- If a title has a mix of paid and Open Access or free content, the access type for a title should be indicated as fee-based, with the value “P.”

access_type

In the case of a hybrid title with both free and with paid content, the title records should be repeated as many times as necessary to indicate coverage ranges for each type of access.

publication_title	date_first_issue_online	date_last_issue_online	access_type
Acta Tropica	1995-03	2014-12	P
Acta Tropica	2015-01	2015-01	F
Acta Tropica	2015-02		P

Quiz!

What are examples of values that can go in the following fields?

- a) Coverage Depth
- b) Publication Type
- c) Access Type

Quiz!

What are examples of values that can go in the following fields?

- a) Coverage Depth – **fulltext, selected articles, abstracts**
- b) Publication Type – **serial, monograph**
- c) Access Type – **free, paid**

Data: <https://goo.gl/kXtEmB>

To create a working copy, choose File>Make a copy... or File>Download as...

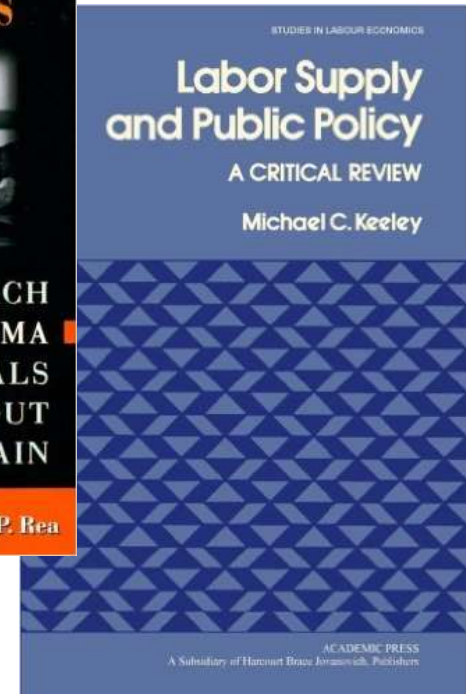

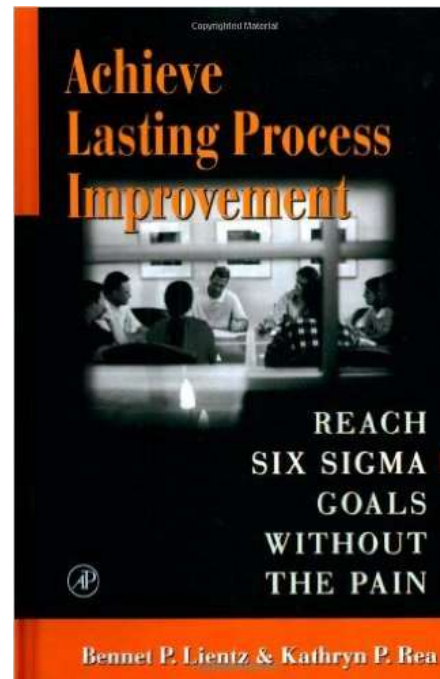

KBART for E-Books

I'll be covering...

Any textual work that isn't a serial

- Book
- Dissertations
- Legal works
- Reports
- Fact sheets
- Manuscripts
- Transcripts
- Graphic novels
- Etc.

I'll also be covering...

Individual volumes of conference proceedings and monographic series

Some tips...

- Book series and conference proceedings series are treated as a serial.
- Individual volumes treated as a monograph.
- In the KBART file, connections are made between the series and its component volumes.

KBART Phase II and e-books

KBART Phase II now accommodates e-book metadata.

Monograph specific fields have been created

- date_monograph_published_print
- date_monograph_published_online
- monograph_volume
- monograph_edition
- first_editor

KBART Phase I field first_author should be used for monographs only.

KBART Phase II and e-books

Some fields do not apply to monographs:

- date_first_issue_online
- num_first_vol_online
- num_first_issue_online
- date_last_issue_online
- num_last_vol_online
- num_last_issue_online

Remaining fields can be used for both serials and monographs (i.e. publication_title, title_url, title_id).

publication_title

Give the full name of the publication as it appears on the print edition or on its web home page.

Special characters should be encoded using the UTF-8 character set.

Package titles should not be given as individual titles within metadata files.

Leading articles should be included in natural language order.

publication_title

The Hidden Lives of Brahman

Bioinformatics and Functional Genomics, Second Edition

Bioinformatics and Functional Genomics

NOTE: Edition information is recorded in monograph_edition field

Introduction to Modeling in Physiology and Medicine

publication_title

-  Volume 1: Rescuing the Enlightenment from Itself
-  Rescuing the Enlightenment from Itself
NOTE: Volume information is recorded in monograph_volume field.
-  Aaron Wildavsky Forum for Public Policy, Volume 4 : Falling Behind :
How Rising Inequality Harms the Middle Class (2nd Edition)
-  Falling Behind: How Rising Inequality Harms the Middle Class
*NOTE: Volume information is recorded in monograph_volume field.
Edition information is recorded in monograph_edition field. Book series
should be described separately.*

print_identifier

For books, use the ISBN-13 identifier, as available.

Link resolvers can convert from the 10-digit ISBN, if necessary.

Where multiple ISBNs exist, only the print format should be used.

Additional identifiers may be included as extra data after the last utilized position (access_type in position 25).

online_identifier

For monographs, provide the e-ISBNs for a title, if one has been created.

Additional identifiers may be included as extra data after the last utilized position (access_type in position 25).

Additional identifiers may be included as extra data in field after the last KBART utilized position (access_type, position 25)

Identifiers for book series and conference proceedings

print_identifier

- Book series/conference proceedings may have serial ISSNs
- Each volume may have its own ISBN

online_identifier

- Book series/conference proceedings may have serial e-ISSNs
- Each volume may have its own e-ISBN

Quiz!

Which of the following monograph titles are properly formatted?

- a) Princeton Legacy Library : Role of Providence in the Social Order : An Essay in Intellectual History
- b) The State and Labor in Modern Japan
- c) War Against the Peasantry, 1927-1930, Volume 1
- d) Eye and Brain : The Psychology of Seeing (5th Edition)

Quiz!

Which of the following monograph titles are properly formatted?

- a) ~~Princeton Legacy Library : Role of Providence in the Social Order : An Essay in Intellectual History~~ Role of Providence in the Social Order: An Essay in Intellectual History
- b) The State and Labor in Modern Japan
- c) ~~War Against the Peasantry, 1927-1930, Volume 1~~ War Against the Peasantry, 1927-1930
- d) ~~Eye and Brain : The Psychology of Seeing (5th Edition)~~ Eye and Brain : The Psychology of Seeing

Quiz!

You are listing an individual volume of a book series. How do you fill in the `print_identifier`?

- a) Check the Tea Leaves, see what has been ordained by the Publishing Gods
- b) ISSN of the Book Series
- c) I'll use my internal coding number that isn't publicly communicated in any way
- d) ISBN

Quiz!

You are listing an individual volume of a book series. How do you fill in the print_identifier?

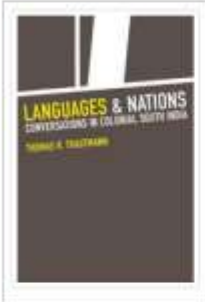

- ~~a) Check the Tea Leaves, see what has been ordained by the Publishing Gods~~
- ~~b) ISSN of the Book Series~~
- ~~c) I'll use my internal coding number that isn't publicly communicated in any way~~
- d) ISBN Use the ISBN! Save the ISSN for the Series/Proceeding level listing.

CONTRIBUTOR	Trautmann, Thomas R.
PUBLISHER	University of California Press
DATE PUBLISHED	May 2006
LANGUAGE	English
PAGES	322
DOCUMENT TYPE	Book
LC SUBJECT HEADINGS	Elia, Francis Whyte, - d. 1819. Dravidian philology - History - 19th century. Orientalism - History - 19th century. Indologists - India - Madras - History - 19th century. India - Study and teaching - India - History - 19th century.
LC CALL NUMBER	DS435.8 -- .T73 2006eb
DEWEY DECIMAL NUMBER	410
PRINT ISBN	9780520244559
EBOOK ISBN	9780520931909
DOI	10.2307/255555

title_url

For book series or conference proceedings the title_url for the series should be different than the title_url for each volume

The screenshot displays two overlapping browser windows from ScienceDirect. The top window shows the URL `www.sciencedirect.com.myaccess.library.utoronto.ca/science/bookseries/00652296` with the `00652296` portion highlighted in a red box. The bottom window shows the same URL but with an additional `/73` at the end, `www.sciencedirect.com.myaccess.library.utoronto.ca/science/bookseries/00652296/73`, also highlighted in a red box. The bottom window displays the page for 'Advances in Botanical Research', Volume 73, featuring a book cover and the title 'Plant Nematode Interactions A View on Compatible Interrelationships'.

About this Book Series

Advances in Botanical Research
Volume 73, Pages 1-376 (March 2015)
Plant Nematode Interactions A View on Compatible Interrelationships
Edited by Carolina Escobar and Carmen Fenoll

Copyright © 2016 Elsevier Ltd. All rights reserved.

first_author

For monographs, give the last name of the book's first author.

Title: 100 Decisive battles : from ancient times to the present

Author: Paul K. Davis

Title: Electrocardiography of Laboratory Animals

Authors: Jeffrey W. Richig and Meg M. Sleeper

Title: Helicopters : An Illustrated History of Their Impact

Authors: Stanley S. McGowen

Title: Mathematical foundations of elasticity

Authors: Jerrold Marsden and Thomas J. R. Hughes

title_id

Give the proprietary identifier for the content title, if you use a title identifier to create links to content.

If more than one identifier exists, supply the title identifier used for linking.

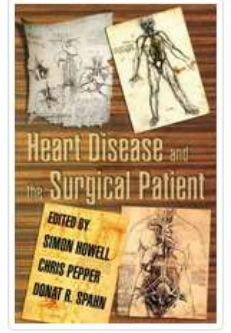

For a book series or conference proceedings, the title_id for each volume should be different than the title_id for the series.

coverage_depth

Indicates the extent to which content is covered within the coverage range and embargo fields.

This field can contain three values:

- fulltext – Indicates that the fulltext of the journal/monograph is available.
- selected articles – Indicates that coverage includes the fulltext of some, but not all articles. Coverage policy should be outlined in the notes field.
- abstracts – Indicates that coverage includes only abstracts of articles.

notes

This is an optional free-text field.

May be used to provide more details pertaining to coverage depth and other exclusions in content.

Notes can be displayed verbatim in the link resolver so users can identify exclusion in content.

Excludes images.

Published under CC-BY license.

publisher_name

Provide the name of the publisher of the monograph.

Do not confuse with the name of a third-party hosting platform.

This data field is of particular importance for packages containing content from multiple publishers.

publisher_name

Unearthing Conflict: Corporate Mining, Activism, and Expertise in Peru

- Published by Duke University Press
- Hosted by HighWire Press

Absent Minds: Intellectuals in Britain

- Published by Oxford University Press
- Hosted by MyiLibrary

Quiz!

For the following publication, what value should be placed in the first_author field?

Counterterrorism : A Reference Handbook

By Rohan Gunaratna and Graeme C. S. Steven

Edited by Mildred Vasan

Quiz!

For the following publication, what value should be placed in the first_author field?

Counterterrorism : A Reference Handbook

By Rohan Gunaratna and Graeme C. S. Steven

Edited by Mildred Vasan

Gunaratna

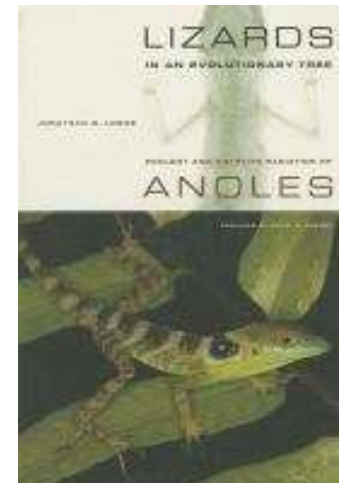

Quiz!

You are listing the following ebrary book in a KBART file. What value would be placed in the publisher_name field?

Lizards in an evolutionary tree: the ecology of adaptive radiation in anoles by Jonathan B. Losos

Berkeley: University of California Press, 2009

<http://site.ebrary.com/lib/Top?id=11047697>

Quiz!

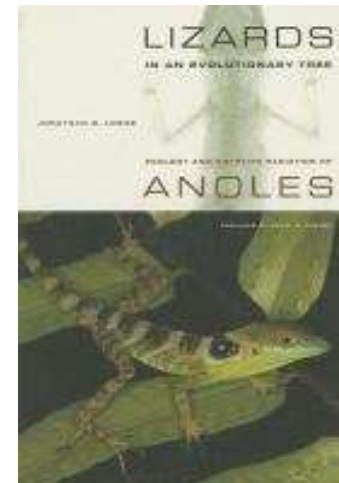

You are listing the following ebrary book in a KBART file. What value would be placed in the publisher_name field?

Lizards in an evolutionary tree: the ecology of adaptive radiation in anoles by Jonathan B. Losos

Berkeley: University of California Press, 2009

<http://site.ebrary.com/lib/Top?id=11047697>

University of California Press

publication_type

publication_type should contain one of two possible values:

Serial – a journal serial or conference proceeding serial.

Monograph – a book or an individual volume within a conference proceeding serial.

date_monograph_published_print

Provide the date when the e-book or conference proceeding volume was published in print.

This data field is mandatory, except where content is born digital (i.e. no print version exists).

Date format: YYYY-MM-DD

Use only those parts of the date data that apply.

date_monograph_published_online

Provide the date when the e-book or conference proceeding was published online.

Date format: YYYY-MM-DD

Use only those parts of the date data that apply.

Date Monograph First Published Online	KBART date
November 30, 2007	2007-11-30
June 2012	2012-06
1988	1988

monograph_volume

Provide the volume number of the monograph, if applicable.

Use of text is acceptable.

Consistency in use of numbers vs. text is essential.

Aaron Wildavsky Forum for Public Policy, Volume 4 : Falling Behind :
How Rising Inequality Harms the Middle Class (2nd Edition)

Acceptable values for monograph_volume:

4

Vol. 4

Volume 4

Just be consistent in the way volumes are recorded!

monograph_edition

For books, indicate the number of the edition, if applicable.

It may be that additional text is needed after the edition, e.g., “8th ed. Revised”.

Use of text is acceptable.

Consistency in use of numbers vs. text is essential.

first_editor

For monographs, give the last name of the book's first editor if there is one.

Title: America in Revolt During the 1960s and 1970s

Editors: Rodney P. Carlisle and J. Geoffrey Golson

Title: Animal Biotechnology

Editors: Ashish Verma and Anchal Singh

Title: Oxford Handbook of Greek and Roman Comedy

Editors: Michael Fontaine and Adele C. Scafuro

Title: Marketing

Editors: P. Kotler, L. Brown, S. Burton, K.R. Deans and G. Armstrong

Quiz!

You are listing an individual volume of a conference proceeding. Do you list the publication type as:

- a) Serial
- b) Proceeding
- c) Monograph
- d) Leave it blank and hope no one notices

Quiz!

You are listing an individual volume of a conference proceeding. Do you list the publication type as:

- a) ~~Serial~~
- b) ~~Proceeding~~
- c) Monograph Let it revel in being the monograph it really is!
- d) ~~Leave it blank and hope no one notices~~

Quiz

Which of the following editions statements are not correctly formatted for the monograph_edition field?

- a) 5th ed. Revised
- b) 2
- c) 2 ed.
- d) Vol. 2

Quiz

Which of the following editions statements are not correctly formatted for the monograph_edition field?

a) 5th ed. Revised

b) 2

c) 2 ed.

d) ~~Vol. 2~~ This is a volume number and belongs in the monograph_volume field.

All edition statements are acceptable, just be consistent in the use of numbers vs. text

parent_publication_title_id

If a monograph belongs to a conference proceeding series or an e-book series, then this field should be populated.

The value of this field should be same as the title_id of the book series or the conference proceedings series that it belongs to.

access_type

The access_type field has 2 possible values:

F = Free content

- 100% of the content must be free

P = Paid content

- If a title has only some Open Access or free content the access type for a title should be indicated as fee-based, with the value “P.”

Title List: <https://goo.gl/PvaI8L>

To create a working copy, choose File>Make a copy... or File>Download as...

Non-KBART RP-covered content types

Non-KBART RP-covered content types

KBART does not currently support content types other than serials and monographs.

In the interim, use the publication_type “Other” to describe non-KBART RP-covered content types (audio, video, image, blog post, etc.).

Use the existing fields as appropriate (title_url, publisher_name, etc.). Additional fields offered are at your discretion.

Non-KBART RP-covered content types

Include any content type-specific information in the optional uncontrolled/extended KBART fields (after the KBART RP fields).

Please ask if you want advice on how to represent this content or if you have any specific concerns or questions.

Next steps for KBART

What's next for KBART?

Continuing Standing Committee focus

Focus on education and outreach

Exploring cross-recommendation collaborations (such as ODI)

Changes in the industry (non-textual content, library-specific entitlements)

Potential changes to the scope of KBART

A photograph of a person's legs sticking out of a body of blue water, with water splashing around the ankles. The word "QUESTIONS?" is written in a large, dark, sans-serif font in the upper left quadrant of the image.
